

## MARKET WAS STEADY

Yesterday's Prices Were Strong and Closed Active.

TOP FIGURE WAS \$5.00

Cattle Receipts Were Light—Market Outlook Good

The market experienced another dull day yesterday and the receipts were very light. The top of the early sales went at \$5.00 and the best of the late brought \$5.00. The close, however, was strong and compared with the preceding day, the market was steady to strong.

Provisions were reported steady and the outlook for a better market for the coming week is quite promising. The packing houses are expanding their business as time goes on and the demand which they create is daily growing larger and larger figures.

Missouri river points quoted strong to higher and all the markets closed with favorable indications.

Chicago went out better yesterday and bought all day at 10 to 15 cents higher than Friday. The market here has assumed a more active and businesslike aspect since its previous lull. The fact that the market is better than it was a week ago is a good sign.

There were but very few cattle shipped yesterday and the market held up steadily.

Hog Sales. (By an arrangement between the packers and commission men, hogs arriving late in the night are fed and watered and weighed upon arrival and the next morning sold at the previous day's prices. These hogs are not included in the "early sales" and the fresh receipts, the sale of which is governed by the market for the day on which they are sold, are quoted under the "head of sales.")

## IN AND ABOUT THE STOCK YARDS

F. M. Pope, of Abilene, came in yesterday with a fine lot of hogs. He says that Mr. Pope is one of the best regulators and comes in with stock about as often as any of them.

The settlement that provided for the hogs to be sold at the Wichita market at all hazards.

There is said to be another commission man at the yard. The more the market, the more the market, the more the market.

L. C. Miller was in yesterday with a carload of hogs from South River. He sold a few hogs from them and went home with the rest of his lot.

Which the stock dealers understood that they can do just as well at the market as they can at the yard.

The packing companies are installing a new live machine which when in use, will be one of the most complete pieces of machinery in the state.

A. H. Burdett, one of Mulvane's most extensive shippers, came in yesterday with a number of hogs which he had sold at a first sale here.

There was no buying and selling and no selling from market until night and still the commission men were busy.

Abuse a Christian all day long, year in and year out, and he will never be injured in the least for he will have to bear his name well in the future after his spirit has taken its natural flight and is out of his body.

C. S. Stewart, of Whitewater, shipped in a big load of excellent hogs yesterday. He says that the hogs are the best he has ever shipped.

Robert V. Vasey, who shipped yesterday with a load of hogs from here. These men are regular customers of the Wichita market and find that it pays them to do their business here.

D. Jackson, of Manhattan, came in yesterday with a load of hogs.

W. J. Norris was in yesterday from Oxford. Mr. Norris ships hogs from this stock and market, good stock at that.

F. M. Carter, one of the leading shippers to the market from this territory. He is the sort of treatment the shippers receive.

## RAIN WAS REPORTED

Caused Bulls to Turn Tail and Wheat Declined.

CORN AND OATS LOWER

Small Run of Hogs Gave Provisions Some Strength.

Chicago, March 5.—An interruption of the long dryness in Kansas and Oklahoma caused a drop of 10c. May corn closed with a gain of 10c. Oats are unchanged. Provisions are up 10c to 20c.

A reflex effect of the Ohio crop report was keenly felt at the opening in wheat an advance at Liverpool being largely credited to the Ohio report. The crowd was quite bullish and bought freely. The general demand caused an initial advance in May or 10c, opening quotations being 10c higher.

July was 10c higher at 10c. A cablegram from Odessa predicting a curtailment of crops owing to a reduction in acreage due to the war was another source of strength. The principal trading was in the July option, commission houses having considerable buying orders for that delivery. July sold up to 10c. Additional realizing occurred on the advance, and when rain was reported in Kansas and other sections of the winter wheat belt the selling became quite brisk.

The market was poorly supported, and a weak tone developed. May declined to 90c, while July dropped to 91c. The market failed to recover, the close being weak and near the bottom. May at 90c. July closed at 91c. Clearances of wheat and flour were equal to 120,000 bushels. Primary receipts were 145,000 bushels, against 115,000 a year ago. Minneapolis, Duluth and Chicago reported receipts of 14, 15, and 16 cars, compared with 21 cars last week and 31 cars a year ago.

Strength in wheat and an active demand from a principal buyer caused a firm market early in the day. The market closed steady with all of the advance lost. The opening in May was unchanged to 10c higher, at 91c to 92c. The early bulls the price rose to 94c, but later dropped back to 91c. The close was at 91c, 10c higher at 91c.

Early in the session an impression prevailed among traders in the wheat pit that the big hog lot in May was accumulating a line of July after opening 10c higher at 91c. May had the higher at 91c, but later dropped back to 91c. The close was at 91c, 10c higher at 91c.

Estimated receipts for Monday: Wheat, 15 cars; corn, 15 cars; oats, 15 cars; hogs, 15 cars.

Small run of hogs with higher prices at the yards gave provisions some strength, and the early strength was well maintained throughout the day. There was a big general trade and comparatively few products on the market. The best buying was by commission houses. Selling by packers caused a partial loss of the advance, but the close was firm.

Flour trading on May was up 10c to 15c. May had the higher at 91c, but later dropped back to 91c. The close was at 91c, 10c higher at 91c.
